DS Assignment

Counteven-odd_node (start)

```
If start = null
     Print"List is empty"
   Exit
End if
     Ptr->start
      Repeat
      white ptr != Null
        set count = count +1
        set ptr = link(ptr)
    if ptr = Null
   Exit
End if
  End repeat
     Print count
End if
   if count = count%2 = 0
     Print "even no. of node"
   else
     Print"odd no. of node"
End
```
